## March Newsletter

### Pre-K and Kindergarten

Pre-K students are beginning our shadow puppet unit that compliments the light unit they are learning in their classrooms. Kindergarten is beginning the playmaking unit where they will learn some of the parts of the stage and learn stage directions while retelling stories.

### 1ST AND 2ND GRADE

Students are beginning our playmaking unit and are interacting with different parts of the stage and stage directions. They are also considering how meaning is conveyed by where characters stand on the stage as they retell stories and use small scripts.

### 5TH GRADE

Students are considering the importance of the parts of the stage and how their movements across the stage help to show how characters feel about each other and where the focal points are in a scene. They will also use stage directions in a script to assist them in demonstrating how their character behaves.
